### **Daycare Grant Program Inquiries**

During the Legislative Session, Commerce was awarded \$2.6 million to provide the state with daycare facilities grants. Currently, Paul G. and Beth are working along with key staff to develop the structure of this program and the timing of its launch. Interest in this program is great as staff have already received many phone calls looking for more information. We've created a location online at [www.NDCommunityServices.com](http://www.NDCommunityServices.com) to collect contact information for those who would like to be notified once program information is developed - simply look for the CHILDCARE banner at the bottom of the home page.

If you receive a question about the daycare grants, please feel free to refer people to this site to register to receive more information once the program structure is complete.

If you have questions about the program, please reach out to Paul G. or Beth for more information.
